

Final Year Project Evaluation System

Digital LMS

***“Your Final Year Journey,
Organized and Online”***

Our aim is to streamline the entire Final Year Project process to enhance communication, evaluation, and transparency.

FYPES Pitch

Final Year Projects can be overwhelming—for students managing submissions, for faculty tracking progress, and for evaluators handling assessments. The 'Final Year Project Evaluation System' brings it all together on one seamless, collaborative platform.

- ✓ Streamlined document submission & feedback
- ✓ Real-time discussion forums for clarity and guidance
- ✓ Transparent grading and evaluation tracking
- ✓ Role-based access for students, faculty, and admins

Built using React.js and Node.js, our system is responsive, secure, and built for scale—transforming how academic projects are managed at UOL and beyond.
